Dear Sir,

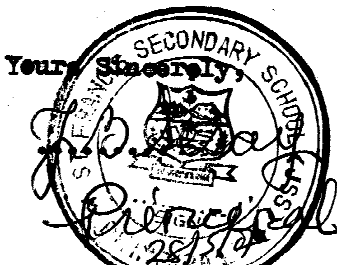

## LETTER OF APPRECIATION

With reference to the above subject, I want to register our profound gratitude over the mutual co-operation and understanding with the ONE FAMILY FOUNDATION. It is of great importance to have organisation like this.

On behalf of Staff and pupils of the St. Francis Secondary School, I want to thank Prof. Helten for the support he has given to the School, especially with his Mathematics. The American has come up with some strategies to entice Secondary School Students to think and enjoy solving Mathematical problems. The idea was derived because of the low percentage of students interest in Mathematics.

We hope that such good will gesture will continue in obtaining lectures to aid us in our curriculum and also soliciting your help in giving us Library and upgrading our Science and Computer rooms for students access to computer studies.

I thank you once again.
