Dear Sir,

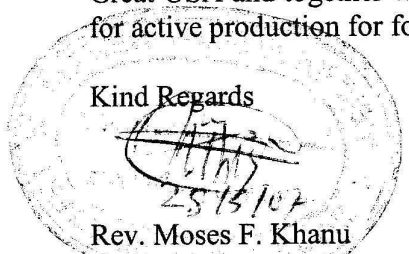

Letter Of Appreciation

On behalf of the District Board of Administration (DBA) and parishioners of the Makeni Wesleyan District, I write to express my sincere appreciation and gratitude to the One Family Foundation for the great support to the youth activities in the Makeni Wesleyan District.

The Makeni Wesleyan District met with One Family Sierra Leone in January this year. In a series of meetings held with Prof. R. P. Holten and Management of One Family Sierra Leone, the two organizations were able to come with a document indicating our manner of cooperation. Since the signing of this document, the Church has received enormous support provided by this American citizen. One Family Sierra Leone is working towards improving the livelihood situation of ordinary parishioners (youth and their families) and leading the Church towards self-sufficiency by providing agricultural inputs both for annual and permanent cropping. One Family Sierra Leone has also succeeded in mobilizing the youth population of the Church and provided them with new ideas on the advantages or benefits of making new friends around the world.

With regards to all that have transpired between the two organizations, the Church is strongly convinced that Prof. Holten can serve as an intermediary between us and the Great USA and together with the FOUNDATION to help us with agricultural equipment for active production for food self-sufficiency .

Kind Regards

25/5/07
